

## 2nd NREL Wind Energy Systems Engineering Workshop

**Save the Date:** Jan. 29<sup>th</sup> - 30<sup>th</sup>

**Follow-on Meetings:** Jan. 31<sup>st</sup> – Feb. 1<sup>st</sup>

### Event Highlights:

**Several panel sessions with expert speakers on topics including:**

- Wind plant cost of energy analysis and optimization
- Multi-disciplinary analysis and optimization for wind energy applications
- Systems engineering of wind energy systems under uncertainty
- Advanced integrated modeling of wind turbines and plants
- Industry perspectives on systems engineering in practice from aerospace to the wind industry

**Networking opportunities and a poster reception**

### Follow-on Events:

- Tutorials on systems engineering and wind plant modeling software
- Workgroup on the development of common interfaces across various wind turbine and plant software
- Tour of the NREL National Wind Technology Center
